

WE ARE WORKING IN YOUR NEIGHBORHOOD.

Your neighbor has selected Lowe's to install ReliaBilt replacement windows in their home. We will begin working on their house in a couple of weeks and we work very hard at picking up any mess that might be created.

We use high quality replacement windows on the homes of our customers, and those windows are packaged very well. While working at your neighbor's home and unpacking the windows, some debris might blow into your yard. We take great care to pick up any packaging that might blow around the neighborhood. If this should happen, we want to make you aware because you might see one of our employees in your yard picking up the debris. We don't want to alarm you if you see a stranger walking through picking up the materials. We always try to make folks, near a home we are working on, aware of this possibility.

Should you see debris in your yard and we fail to catch up with it, please do not hesitate to call me directly on my cell phone listed below. Thank you for your understanding.

**We Install Quality
Reliabilt Windows and Doors.**
