To calculate actual glass size per opening, add 7/8" to the Visible Glass Width and add 7/8" to the Visible Glass Height.

* Rough opening sizes shown are for frame construction. Consult a Silver Line dealer for other rough opening size information, such as with masonry or block applications.

^ **BOLD** type indicates window meets or exceeds clear opening area of 5.7 sq ft, clear opening width of 20" and clear opening height of 24".

† Windows with height of over 7' will be an Oriel window (top sash is larger than bottom sash).
