RELIABILIT Windows and Doors is a brand exclusive to Lowe's, that offers one of the industry's widest selections of vinyl windows and sliding patio doors available. RELIABILIT's premium products feature superior energy efficiency and long-lasting quality, plus they are virtually maintenance-free.

The RELIABILIT Advantage:

- Exclusive to Lowe's
- 'Top-Rated Vinyl Replacement Double Hung' – the industry's highest rating for a vinyl replacement double hung by a leading consumer magazine*
- One of the most complete line of products available, with standard features and optional enhancements to fit any budget or style of home
- A range of energy efficient products, up to R-5, to provide maximum thermal performance and energy savings
- ENERGY STAR® certified performance available in all climate zones ▶
- Industry-leading, lifetime warranty available for everything from glass breakage to labor

The benefits of ENERGY STAR® As energy costs continue to skyrocket, the thermal efficiency of windows and doors is becoming a critical priority. RELIABILT provides you with state-of-the-art, energy efficient windows and doors that can pay for themselves over time.

▲ Picture windows in white

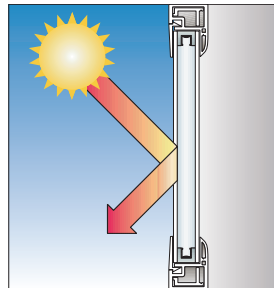

Many RELIABILT products can be configured to meet ENERGY STAR® ratings in most climate zones. Verify product specifics before ordering.¹

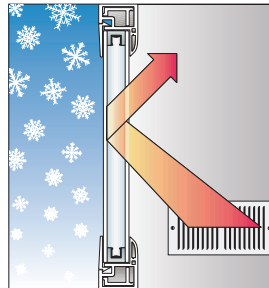

Low-E Glass Technology²

Energy efficient glass provides better insulation, less condensation and greater energy savings all year. Low-E glass can also be ordered with Argon gas which forms an invisible barrier between the glass panes and creates a buffer against outside noise.

In the summer, Low-E glass reduces heat gain from the sun to help keep homes cooler.

In the winter, Low-E glass lets the warm solar rays in while blocking the heat in the home from getting out.

¹ ENERGY STAR certification based on individual window's or door's glass and grid configuration meeting both U-Value and Solar Heat Gain Coefficient as established by each ENERGY STAR climate zone.

² Low emissivity (Low-E) glass reflective properties and solar control performance according to Cardinal Glass and National Fenestration Rating Council (NFRC). Please see www.cardinalcorp.com for additional information on solar control glass.
