Built for the Coast. Designed for Peace of Mind.

Engineered to perform beautifully in coastal environments, RELIABILT Coastal windows and sliding patio doors deliver lasting strength, impact resistance, and energy efficiency, so your home stays protected and comfortable year-round.

Choosing the Right Window or Patio Door is Easy

STEP 1

Choose your features and styles

What is important to you about new windows and doors? Is it energy efficiency? Upgraded strength and insulation? Performance glass? And which operating styles fits best with your home?

See pages 3-8 to view the key RELIABILT features and styles to create your perfect update.

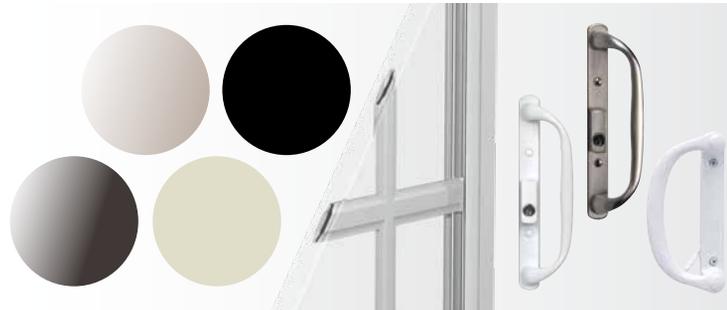

STEP 2

Select design options

RELIABILT windows and doors are available with a wide selection of design options, energy-efficient solutions and functional styles. Choose from glass enhancements, style upgrades and grid choices.

See the full options assortment on page 7-8.

STEP 3

Determine and verify the correct window or patio door size

If there is any doubt about what size to order for the opening(s), please consult a professional contractor.

STEP 4

Decide who will install your windows and doors

Do it yourself or have a professional install it for you. Please ask an associate for complete details.

PROTECTION YOU CAN TRUST: DAY AFTER DAY, STORM AFTER STORM.

Premium performance Coastal Products with proven protection for your home

Whether your home faces the shoreline or sits just inland, RELIABILT Coastal Series windows and sliding patio doors are purpose-built to withstand the challenges of coastal living. Heavy-duty vinyl frames, impact-resistant glass, and reinforced construction provide dependable protection from wind, rain, and flying debris – without the need for shutters or plywood.

Certified to meet:

- Florida Building Code product approval
- Texas Department of Insurance (TDI) product approval
- High Velocity Hurricane Zone (HVHZ) approval
- AAMA/WDMA/CSA 101/I.S.2/A440
- National Fenestration Rating Council® (NFRC)
- ENERGY STAR® certification (with select glass options)
- IECC & Florida energy code

The Power of Impact-Resistant Glass: Protection You Can See Through

Many RELIABILT Coastal windows and sliding patio doors feature laminated, impact-resistant insulated glass that stands up to the harshest coastal weather. A clear polymer interlayer between two panes of glass helps block debris and sound while maintaining clarity and insulation.

STANDARD GLASS is NOT impact resistant.

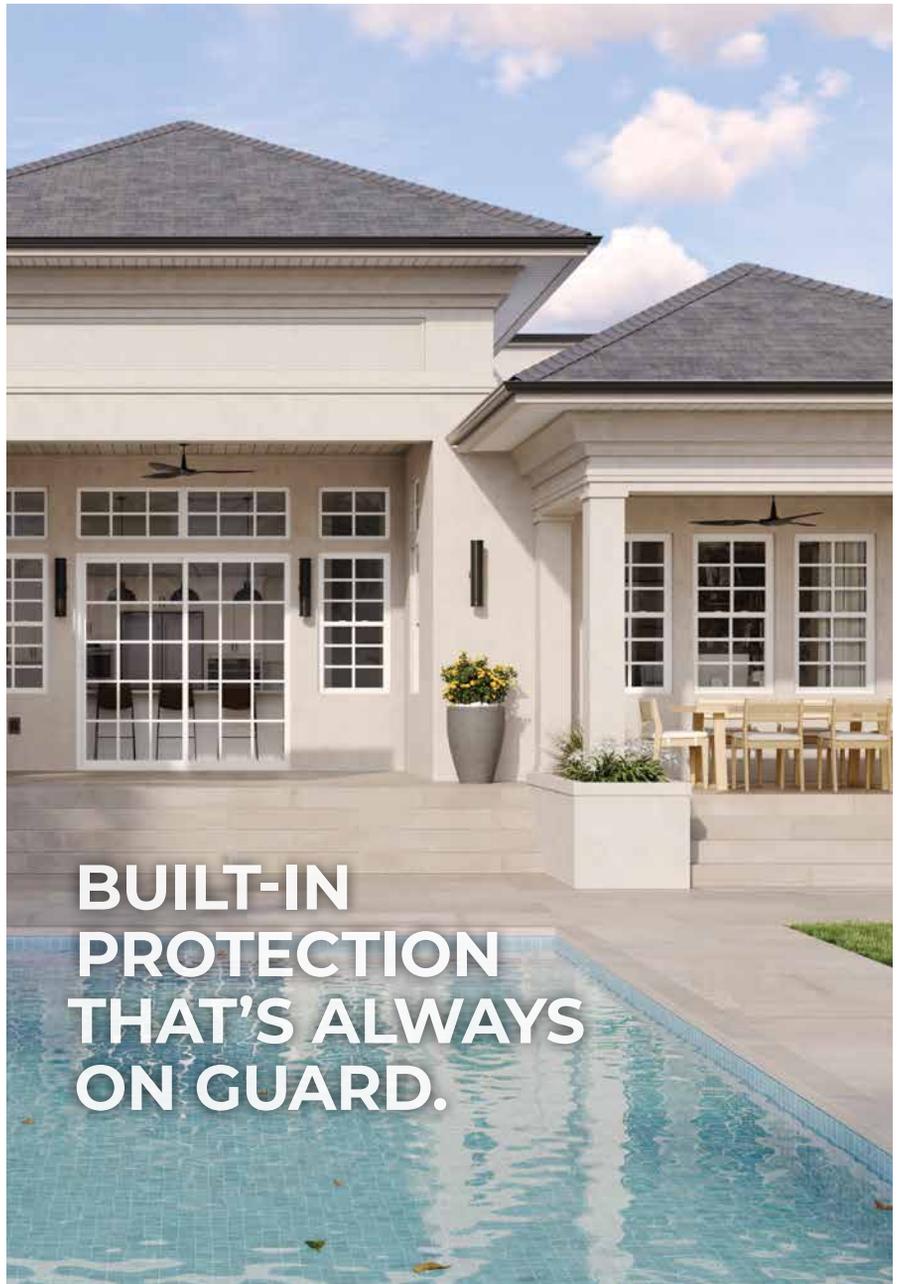

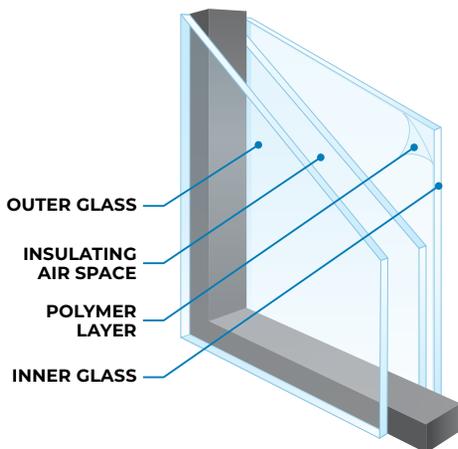

VS

IMPACT-RESISTANT GLASS Protects your home from flying debris.

Benefits of Impact-Resistant Glass:

- **STORM PROTECTION:** Defends against severe wind and airborne debris.
- **SAFETY:** Adds resistance to forced entry for greater peace of mind.
- **ENERGY SAVINGS:** Helps reduce solar heat gain to keep your home cooler.
- **SUN PROTECTION:** Filters damaging UV rays that can fade interior finishes.
- **SOUND REDUCTION:** Minimizes outside noise for a quieter home.
